TECHNICAL SKILLS

- Networking and Communication Protocols
- Programming
- Web development
- IoT and Automation
- Electronics and Hardware
- Simulation and Design Tools

SOFT SKILLS

- Problem-Solving
- Communication
- Teamwork
- Adaptability

LANGUAGES

- English (Fluent)
- Swahili (Fluent)

PROFILE

A dedicated and innovative 3rd-year Telecommunication and Information Engineering student at Dedan Kimathi University of Technology with a strong foundation in engineering, computer science, and communication technologies.

Well-versed in electronics, power systems, electrical machines, circuit design, software development, and IoT technologies.

Additionally, skilled in web development, proficient in both front-end and back-end technologies, including HTML, CSS, JavaScript, React.js, Python, and Django, showcasing versatility in developing dynamic and responsive applications.

EXPERIENCE

Attaché

JANUARY-APRIL 2024

Dedan Kimathi University Of Technology

This Internal attachment Focused on gaining practical skills and knowledge in the following areas: Power installation, Arduino c programming, AUTOCAD, Motors, Home automation project, PCB design, and Software tools.

EDUCATION

Bsc. Telecommunication And Information Engineering

2022 - PRESENT

Dedan Kimathi University Of Technology

Telecommunication and Information Engineering is a multidisciplinary field that combines principles of electrical engineering, computer science, and communication technologies. It focuses on the design, development, and maintenance of systems that transmit, process, and store information efficiently and securely. Key areas of study include telecommunications, information systems, software development, electronics, IOT and emerging technologies.
